Portfolio: www.sabahodinsharaf.com

Currently based in Ashford, Surrey

Professional Profile:

“Motivated young professional with an outstanding amount of academic reward and passion to progress in his career”

Having achieved adequate grades in my GCSEs and A-Levels, I am eager to pursue a career in programming and game developing. I have a strong aptitude for maths and have received several notable awards in my study and extra-curricular activities which would make me a useful asset to any department.

Technical Skills:

<u>Programming Languages</u>	<u>Game Engines</u>	<u>Specialist Software</u>	<u>Source Control</u>
C#	Unity	3DS Max	Github
C++	Unreal Engine 4	Adobe Photoshop	
Java	MonoGame (GDF)	HTML, CSS & JS	
Python		Maya	
		Microsoft Office5	
		paint.net	

Soft Skills:

- Confidence | Patience | Motivation | Enthusiasm
- Languages: English (fluent), Dari (fluent), Arabic (beginner)

Education:

BSc Computer Games Development – University of Westminster

Sep 2021 - Jul 2024

Computer Games Development is a games-based computer science course heavily influenced by programming and mathematics. The course contains group-based and individual-based projects such as creating game assets and different programs.

Key Modules

- Maths & Physics
- Game Networking & Security
- Game AI
- Game Engine Architecture
- Computer Graphics Programming
- Programming Methodology (C# & C++)

Degree: BSc (Honours) - 2:2

As an extension to my studies of Games Development, I decided to enroll in a professional course which grants me the knowledge to excel in my understanding of game engines, such as Unity. I would hope to use what I have learned from this bootcamp in the industrial world.

Employment:

Work Experience

1 Week Placement (Jul 2018)

Helper for Children's "Activities Week"

I have worked with at least 20 of the school's staff with planning out activities and schedules for students. I have also assisted the students with their activities.

Cherry Hill Tuition

March 2022 - Present

Maths, English & Science Tutor

Teaching over 200 students from KS1 to KS4 that resulted in an improvement in their grades and significantly enhanced confidence in the subject. I have also been given the opportunity to invigilate official exams in order to enhance my patience and quick-thinking skills whilst monitoring the students.

Hobbies and Interests:

Sports:

- Key interests such as Table Tennis, Football, Basketball and Taekwondo that allow me to stay active.

Video Games:

- Ever since I was a child, gaming has been a huge part of my life. As I grew up, my passion for games only deepened, inspiring me to pursue a career in game development.
